SYMAGA QUALITY POLICY.

The management of SYMAGA, a company dedicated to the manufacture of silos and components for poultry and pig farming, establishes that quality is an essential factor for the success of the company and that each person in the organisation is responsible for the role they perform and is committed to achieving the following general objectives:

To provide products and/or services that meet the needs and expectations of our customers and stakeholders, aimed at:
o Offering customised solutions.
o Carrying out turnkey projects and installations in the shortest possible time.
o Providing an effective maintenance service.
Complying with applicable requirements, including legal and regulatory requirements.

Continuously improving the management system.
Preventing any possible deficiencies, shortcomings and anomalies that may arise in the course of daily activities.
Promoting a culture of quality at all levels of the organisation.
Collecting customer complaints and suggestions, and using this information to continuously improve products, services and the management system.

The achievement of these objectives and compliance with the system requirements will ensure the continuity of SYMAGA, its growth, its improvement and the future of all of us. That is why I request the active collaboration and participation of all staff in the development of the activities defined in the management system.

This policy is an integral part of SYMAGA's business and is disseminated to all staff so that it is understood and applied, with the aim of maintaining and consolidating the management system
.

SYMAGA is committed to complying with the UNE EN 1090-1 standard, as well as any regulatory framework that affects our products or services.

Signed: Chairman
